999-47-79   **Jim Gleason*** (`gleason@math.utk.edu`), Department of Mathematics, University of Tennessee, Knoxville, TN 37996-1300. *Quasinormality and Tuples of Toeplitz Operators.* Preliminary report.

We will look at different generalizations of quasinormality to the multivariable setting. We will then look at which tuples of Toeplitz operators on the ball or polydisc with pluriharmonic symbols satisfy these descriptions. (Received August 10, 2004)
