**Helen Wong\*** (hwong@carleton.edu), 1 N College St, Northfield, MN 55057, and **Martin Bobb** and **Dylan Peifer**. *The Kauffman arc algebra is finitely generated*. Preliminary report.

We exhibit a finite set of generators for the Kauffman arc algebra, which Roger and Yang recently defined to be a quantization of Penner's decorated Teichmüller space. (Received January 19, 2015)
