1127-60-326   **Andrey Sarantsev*** (`sarantsev@pstat.ucsb.edu`), South Hall 5607A, University of California, Santa Barbara, CA 93106. *Collisions of Brownian Particles.*

Three independent Brownian motions do not collide, but if they have rank-dependent diffusion coefficients, they might collide. We investigate this question for multiple Brownian particles. (Received February 06, 2017)
