

Council Minutes

Washington, D.C.

15 April 2000

Abstract

The Council of the Society met at 7:00 p.m. on Saturday, 15 April 2000, at the Governor's House Hotel in Washington, D.C. These are the minutes for the meeting. Several items were discussed in Executive Session, and they are reported in these open minutes.

I MINUTES

1. Call to Order

1.1._ Opening of the Meeting and Introductions

President Browder, who presided throughout, called the meeting to order at 7:00PM (EDT). Members and guests were introduced. Members present were Patricia Bauman, William Beckner, Felix E. Browder, Robert J. Daverman, Robert M. Fossum, Martin Golubitsky, Jane M. Hawkins, Karen H. Parshall, Joel H. Spencer, Michael Starbird, Lisa M. Traynor, and Karen Vogtmann.

Also attending were Joseph P. Brennan, William Browder (Nominating Committee), John Ewing (Executive Director), Andy Magid (Board of Trustees), Sam Rankin (Associate Executive Director), and Sandra Golden (Assistant to the Secretary).

The current membership of the Council, as of the April 2000 Council meeting, is listed in Attachment A.

1.2. 1999 Elections

The Society conducted its annual elections in the fall of 1999. Those elected took office on February 1, 2000, and the newly elected members of the Council are:

President Elect	Hyman Bass
Vice President	David Eisenbud
Members at Large	Patricia Bauman
	William Fulton
	Martin Golubitsky
	Jonathan M. Rosenberg
	Lisa Traynor

In addition, William Beckner and Carlos E. Kenig have joined the Council. They serve as representatives from the Transactions and Memoirs Editorial Committee and the Journal of the AMS Editorial Committee, respectively.

2. Minutes of Previous Meetings

2.1. Minutes of the January 2000 Council

The minutes of the January 2000 Council were distributed by mail prior to the meeting and were available on the web. The minutes were approved as distributed.

2.2. Minutes of Business by Mail

The Council conducted business by mail since the last meeting, electing a member to its Executive Committee, approving an appointment to an Editorial Committee, and endorsing a Statement on Open Science and Society so as "to speak in the name of the Society." Minutes for this business, which are included here as Attachments B and C, were approved as written. Here is a summary of actions taken.

2.2.1. Election to the Executive Committee

Robert L. Bryant, Member at Large, was elected to the Executive Committee for a four year term beginning 16 March 2000. The term will end when a new member is elected to replace him, and that election will occur in February 2004.

2.2.2. Election as the Council Representative to the Joint Policy Board on Mathematics (JPBM)

Donald G. Saari, Member at Large, was elected as Council representative to JPBM for a two year term beginning 16 March 2000. Again, the term will end when a new representative is elected to replace him, and that election will occur in February 2002.

2.2.3. Resolution on Open Science and Security

The Council voted approval of the following so as to speak in the name of the Society.

Resolution on Open Science and Security

The AMS is deeply concerned about the consequences of potentially inappropriate restrictions on foreigners, particularly at national laboratories. Such restrictions could harm U.S. national interests by impeding scientific progress, could weaken the nation's role as a key player in the international scientific community, and could endanger international cooperative activities that bolster our national security and well-being. At the same time, the AMS clearly recognizes the importance of protecting U.S. national security interests from foreign espionage.

A 1995 report from the Academies' National Research Council, "A Review of the Department of Energy Classification Policy and Practice," urged DOE to adopt the following principle: "Construct high fences around narrow areas." That is, it recommended that the department maintain very stringent security around sharply defined and narrowly circumscribed areas, but reduce or eliminate classification around areas of lesser sensitivity. The report endorsed the view that scientific openness in unclassified areas is key to the health of the scientific enterprise.

New restrictions on interactions with foreign scientists would be damaging in ways we cannot fully anticipate. DOE national laboratories necessarily engage, not only in classified military work but also in basic scientific research and educational programs, as well as technology transfer activities that stimulate scientific innovations and important new applications of technology. Over the course of many years, immigrant scientists as well as foreign visitors and students have contributed enormously to the American scientific enterprise. Any negative

characterization of scientists on the basis of ethnic or national origins is destructive to science and American values.

Therefore, the AMS endorses the use of procedures which balance the needs of science and security in accordance with the recommendations of the National Academy of Science as described in its recent report "Balancing Scientific Openness and National Security Controls at the Nation's Nuclear Weapons Laboratories."

3. Consent Agenda

There were no consent agenda items

4. Reports of Boards and Standing Committees

Items 4.1 and 4.2 were considered in Executive Session.

4.1. Nominating Committee

William Browder presented the report of the Nominating Committee concerning candidates for the election of 2000. The report itself is filed in the AMS Committee Report Book for 2000 as Report Number 000207-005.

4.1.1. Vice President

Upon the recommendation of the Nominating Committee, the Council nominated **INGRID DAUBECHIES** (Princeton University) and **M. SUSAN MONTGOMERY** (University of Southern California) as candidates for election to one post as Vice President for a term of three years, beginning 01 February 2001 and ending 31 January 2004.

4.1.2. Members at Large of the Council

The Nominating Committee recommended and the Council nominated **WALTER L. CRAIG** (Brown University), **KEITH J. DEVLIN** (Saint Mary's College), **IRENE FONSECA** (Carnegie Mellon University), **JOEL HASS** (University of California Davis), **WILLIAM JAMES LEWIS** (University of Nebraska), **PAUL S. MUHLY** (University of Iowa), **ALEXANDER J. NAGEL** (University of Wisconsin), **IRENA PEEVA** (Cornell University), **LOUISE A. RAPHAEL** (Howard University) and **HEMA SRINIVASAN** (University of Missouri) as candidates for election to the position of Members at Large of the Council (five to be elected). The term is three years, beginning 01 February 2001 and ending 31 January 2004.

4.1.3. Board of Trustees

The Nominating Committee recommended and the Council nominated **JOHN B. CONWAY** (University of Tennessee) and **DOUGLAS A. LIND** (University of Washington) as candidates for election to one position as Trustee for a period of five years beginning 01 February 2001 and ending 31 January 2006.

4.2. Editorial Boards Committee

The Editorial Boards Committee (EBC) recommended appointments to several editorial committees.

4.2.1. Colloquium Editorial Committee

The Council appointed **PETER SARNAK** (Princeton University) as a member of the Colloquium Editorial Committee for a three year term, beginning 01 February 2000 and ending 31 January 2003.

4.2.2. Mathematical Reviews Editorial Committee

The Council also appointed **HEINZ ENGL** (Institute of Industrial Mathematics, Johannes Kepler University, in Linz, Austria) as a member of the Mathematical Reviews Editorial Committee for a three year term, beginning 01 Feb 2000 and ending 31 January 2003.

4.2.3. Notices Editorial Board

Upon the suggestion of Harold Boas, Editor-Elect of the *Notices*, and the recommendation of the EBC, Council appointed **WILLIAM A. CASSELMAN** (British Columbia), **SUSAN J. FRIEDLANDER** (Illinois - Chicago), **ANDY R. MAGID** (Oklahoma), **JUDITH ROITMAN** (Kansas) and **MARK E. SAUL** (Bronxville HS) as Associate Editors on the Notices Editorial Board. Furthermore, again upon Boas's suggestion and EBC recommendation, the Council appointed **NATHANIEL DEAN** (Rice) and **LISA M. TRAYNOR** (Bryn Mawr) as Associate Editors. All these appointments are for three year terms, beginning 01 Jan 2001 and ending 31 Dec 2003.

4.3. AMS-ASA-AWM-IMS-MAA-NCTM-SIAM Joint Committee on Women in the Mathematical Sciences (JCW)

The Joint Commission on Women was founded in 1971 as an AMS Committee. At that time its charge was:

to identify and to recommend to the Council those actions which in their opinion the Society should take to alleviate some of the disadvantages that women mathematicians now experience and to document its recommendations and actions by presenting data.

At its October 1999 meeting the JCW decided to present an altered charge to better reflect the contemporary situation and to take a more positive view. They proposed, and the Secretary recommended adoption (subject to adoption by the other societies) of, the following charge:

to identify mechanisms for the enhancement of opportunities for women in the mathematical and statistical sciences, recommend actions to those societies in support of these opportunities, and document its recommendations by presenting data.

The motion to adopt the change in charge was tabled.

4.4. Report from the Committee on Science Policy

The annual report of this committee is filed in the AMS Committee Report Book for 2000 as Report Number 000115-004.

4.5. Report from the Committee on Professional Ethics

The annual report of this committee is filed in the AMS Committee Report Book for 2000 as Report Number 000110-002.

4.6. Report from the Arnold Ross Lecture Committee

The annual report of this committee is filed in the AMS Committee Report Book for 2000 as Report Number 000207-006.

4.7. Report from the Short Course Subcommittee

The annual report of this committee is filed in the AMS Committee Report Book for 2000 as Report Number 000104-001.

4.8. Report from an AMS Representative to AAAS

The annual report of this committee is filed in the AMS Committee Report Book for 2000 as Report Number 000318-007.

4.9. Report from the AMS-MAA Committee on Teaching Assistants and Part-time Instructors

The annual report of this committee is filed in the AMS Committee Report Book for 2000 as Report Number 000111-003.

5. Old Business

5.1. Individual Member Dues for 2000

According to the bylaws, the Council sets the dues with the approval of the Board of Trustees. [Article IX, Section 2, states in part: "The annual dues of an ordinary member ... shall be established by the Council with the approval of the Trustees."]

The Executive Director and the Secretary recommended to the Council that the high/low dues cutoff be increased from \$65,000 to \$75,000 for 2001. Attachment D provides an estimate of the potential impact on dues revenue of such a change. The Council recommended this increase of \$10,000 in the high/low dues cutoff for 2001 to the Board of Trustees.

6. New Business

6.1 Levi L. Conant Prize Selection Committee

At its previous meeting the Council established a new prize, the Levi L. Conant Prize, to be awarded for expository writing. Upon the recommendation of the Secretary, the Council approved the naming of a Prize Selection Committee, organized and charged as specified below, to implement the making of awards.

General Description

Type of committee: standing

Number of members: three

Term: three years

Charge: Annually make recommendations to the Executive Committee of the AMS Council about the winner of the Levi L. Conant Prize, for the best expository paper published in either the *Notices* or *Bulletin of the American Mathematical Society* during the previous five years.

6.2 Proceedings of Symposia in Applied Mathematics Editorial Committee

Also upon the recommendation of the Secretary, the Council approved changing the charge of the Proceedings of Symposia in Applied Mathematics Editorial Committee to the following:

Charge: Editorial responsibility, including the authority to accept manuscripts, for new publications in the Proceedings of Symposia in Applied Mathematics Series and for the reprinting of existing publications in the series. Liaison should be maintained with the Short Course Subcommittee of the Program Committee for National Meetings, and with the AMS-IMS-SIAM Committee of Joint Summer Research Conferences, because manuscripts may be expected to arise from short courses and/or Summer Research Conferences, and the Editorial Committee should be aware of these from inception. The committee should also seek out very high-quality older books that are appropriate for the series, and include them in the series either by reprinting the books or publishing new editions.

The change, which consists of adding liaison with the AMS-IMS-SIAM Committee on Summer Research Conferences to the charge, is parallel to that of the Proceedings of Symposia in Pure Mathematics Editorial Committee, a committee just established at the January 2000 Council Meeting.

6.3 Fan Fund Committee

At its previous meeting the Council accepted a gift from Ky and Yu-fen Fan, part of which was designated to foster collaboration between American and Chinese mathematicians. To provide structure for implementing that gift, upon the recommendation of the Secretary the Council established a committee to

oversee the distribution of funds, to be called the Fan Fund Committee, with the following general description and charge:

General description

Type of committee: standing

Number of members: three

Term: three years

Charge: to monitor the distribution of funds from the Ky and Yu-fen Fan Endowment Fund for the support of Chinese mathematics and the promotion of cooperation between mathematicians in China and North America.

Principal Activities:

The oversight committee may find it necessary to create review panels for evaluating proposals. The AMS committee will work directly with AMS staff to establish and to conduct such review panels.

6.4. Report of the Executive Director

The Executive Director, John H. Ewing, gave his annual report to the Council. It is filed in the AMS Committee Report Book for 2000 as Report Number 000411-008.

7. Announcements, Information and Record

7.1. Centennial Fellowships

The Centennial Fellowships Committee has announced fellowship awards to Siqi Fu (University of Wyoming), Christopher Herald (University of Nevada, Reno), Wei-Dong Ruan (Columbia University) and Vasily V. Strela (Drexel University). All have accepted. The amount of each 2000-2001 Fellowship award will be \$39,000, with an additional expense allowance of \$1600.

7.2. Future Meetings of Mathematical Organizations

See the listing of future meetings in Attachment E.

8. Adjournment

The Council adjourned at 8:50 PM (EDT).

ATTACHMENT A

2000 AMS COUNCIL
effective 4/01/2000

President	Felix E. Browder	Rutgers University	2000
President Elect	Hyman Bass	University of Michigan	2000

MINUTES OF BUSINESS BY MAIL

**AMERICAN MATHEMATICAL SOCIETY
MINUTES OF THE COUNCIL
BUSINESS BY MAIL
March 16, 2000**

In a mail ballot dated February 15, 2000, there were 27 ballots cast by Hyman Bass, Patricia Bauman, William Beckner, Robert L. Bryant, Felix E. Browder, Jennifer Tour Chayes, John B. Conway, Robert J. Daverman, Clifford J. Earle, David Eisenbud, Robert A. Fefferman, Robert M. Fossum, John M. Franks, Susan Friedlander, William Fulton, Martin Golubitsky, Andrew Odlyzko, Karen V.H. Parshall, Jonathan M. Rosenberg, Donald G. Saari, Joel H. Spencer, Michael Starbird, B.A. Taylor, Tatiana Toro, Lisa M. Traynor, Karen Vogtmann and Lars B. Wahlbin.

1. Election to the Executive Committee

In the election to the Executive Committee the result was

Robert L. Bryant	20
Karen H. Parshall	7

Accordingly, Bryant is declared elected, effective immediately, and ending when a replacement is determined in the election of February 2004.

2. Election as Council Representative to the Joint Policy Board for Mathematics (JPBM)

In the Election as the AMS Council Representative to the JPBM, the result was

Martin Golubitsky	10
Donald G. Saari	17

Accordingly, Saari is declared elected, effective immediately, and ending when a replacement is determined in the election of February 2002.

Robert J. Daverman
Secretary
March 16, 2000

ATTACHMENT C

MINUTES OF BUSINESS BY MAIL

**AMERICAN MATHEMATICAL SOCIETY
MINUTES OF THE COUNCIL
BUSINESS BY MAIL
March 20, 2000**

A mail ballot dated 17 February 2000 presented the following statement on Open Science and Security, for possible adoption "so as to speak in the name of the Society."

Resolution on Open Science and Security

The AMS is deeply concerned about the consequences of potentially inappropriate restrictions on foreigners, particularly at national laboratories. Such restrictions could harm U.S. national interests by impeding scientific progress, could weaken the nation's role as a key player in the international scientific community, and could endanger international cooperative activities that bolster our national security and well-being. At the same time, the AMS clearly recognizes the importance of protecting U.S. national security interests from foreign espionage.

A 1995 report from the Academies' National Research Council, "A Review of the Department of Energy Classification Policy and Practice," urged DOE to adopt the following principle: "Construct high fences around narrow areas." That is, it recommended that the department maintain very stringent security around sharply defined and narrowly circumscribed areas, but reduce or eliminate classification around areas of lesser sensitivity. The report endorsed the view that scientific openness in unclassified areas is key to the health of the scientific enterprise.

New restrictions on interactions with foreign scientists would be damaging in ways we cannot fully anticipate. DOE national laboratories necessarily engage, not only in classified military work but also in basic scientific research and educational programs, as well as technology transfer activities that stimulate scientific innovations and important new applications of technology. Over the course of many years, immigrant scientists as well as foreign visitors and students have contributed enormously to the American scientific enterprise. Any negative characterization of scientists on the basis of ethnic or national origins is destructive to science and American values.

Therefore, the AMS endorses the use of procedures which balance the needs of science and security in accordance with the recommendations of the National Academy of Science as described in its recent report "Balancing Scientific Openness and National Security Controls at the Nation's Nuclear Weapons Laboratories."

Ballots were received from the following: James G. Arthur, Patricia Bauman, William Beckner, John L. Bryant, Robert L. Bryant, Felix E. Browder, Jennifer Tour Chayes, John B. Conway, Robert J. Daverman, Clifford J. Earle, David Eisenbud, Robert M. Fossum, John M. Franks, Susan Friedlander, William Fulton, Martin Golubitsky, Jane Hawkins, Andrew Odlyzko, Karen V.H. Parshall, Jonathan M. Rosenberg, Mary Beth Ruskai, Donald G. Saari, Joel H. Spencer, B.A. Taylor, Tatiana Toro, Lisa M. Traynor, Karen Vogtmann and Lars B. Wahlbin.

The results of this ballot were:

Yes	27
No	1

Passage of a statement “so as to speak in the name of the Society” requires a favorable vote of two-thirds of the Council (voting) members. For this mail ballot there were 36 Council (voting) members. Accordingly, the Statement on Open Science and Security is adopted in the name of the Society.

Robert J. Daverman
Secretary

March 20, 2000

ATTACHMENT D

BACKGROUND ON INDIVIDUAL DUES AND MEMBERSHIPS

To: John Ewing
From: Jim Maxwell
Subject: Dues Revenue Impact of Increase in High/Low Cutoff
Date: 21 March 2000

This is an attempt to estimate the potential impact of the plan to increase the salary cutoff between Ordinary High dues and Ordinary Low dues from \$65,000 to \$75,000 for 2001.

Our experience with last year's increase (from \$55,000 to \$65,000) makes it clear that gauging the likely impact is tricky. Last March, I estimated that 1,700 ordinary members had salaries between \$55,000 and \$65,000. That estimate used the fall 1998 salary distribution of the tenured and tenure-eligible faculty at the doctorate-granting mathematics departments as a substitute for the salary distribution of our ordinary members. Yet as of March 20 of this year, only 200 Ordinary High members in 1999 switched to Ordinary Low in 2000. The final number will go up only slightly. While the salary distribution of AMS members may be skewed in some way, I don't believe that my estimate of the number of people in the affected range is different by a multiple of eight. It seems clear to me that there are other factors at work.

Given this situation, the best I can offer is a range of potential impacts for the currently proposed change. Many individuals renewing for 2000 may not have noticed the increase in the cutoff; it was not prominent on the dues renewal form. So some who were eligible to switch to Ordinary Low for 2000 almost surely will now do so for 2001. This leads me to my low-end estimate of 400 members switching. The translates into a dues reduction of \$13,600, based on the \$34 difference between 2001 Ordinary High and Low dues.

A look at the faculty salary distribution for fall 1999 leads me to my high-end estimate. Using the same approach as last year produces an estimate of 1,600 Ordinary High members making between \$65,000 and \$75,000. A switch of this size would mean a dues reduction of \$54,400.

The actual number will almost certainly fall between these two estimates, and probably closer to the low-end figure of 400 than the high-end figure of 1,600.
