Support for your research
APPLY FOR AMS FELLOWSHIPS
Application period: July 15–September 30, 2024

Joan and Joseph Birman Fellowship for Women Scholars

A midcareer research fellowship specially designed to fit the unique needs of women. The most likely awardee is a midcareer woman, based at a US academic institution, with a well-established research record in a core area of mathematics.

For more information see:
www.ams.org/birman-fellow

AMS Claytor-Gilmer Fellowship

To further excellence in mathematics research and generate wider and sustained participation by Black mathematicians. The most likely awardee is a midcareer Black mathematician based at a US institution whose achievements demonstrate significant potential for further contributions to mathematics.

For more information see:
www.ams.org/claytor-gilmer

AMS Centennial Fellowship

Awarded annually to an outstanding mathematician to help further their career in research.

Eligible mathematicians have held a doctoral degree for 3–12 years, and currently hold a tenured, tenure track, postdoctoral, or comparable position at a US institution.

For more information see:
www.ams.org/centfellow

AMS Stefan Bergman Fellowship

Supports the advancement of the research portfolio of a mathematician who specializes in the areas of real analysis, complex analysis, or partial differential equations.

Eligible mathematicians are at US institutions, have not received tenure or comparable, and have not held significant fellowship support.

For more information see:
www.ams.org/bergman-fellow
